

7.37 million people in the United States had Intellectual or Developmental Disabilities (IDD) in 2016

20% 1.49 million people with IDD were known to or served by state IDD agencies

17% 1.23 million people with IDD received long-term supports or services through state IDD agencies

Sources: Prevalence rates for children with ID, ASD, or DD from the 2016 National Health Interview Survey (NHIS; Zablotsky et al, 2017), prevalence rates for adults with ID, DD, or both from the 1994/1995 NHIS (Larson et al, 2001), estimated U.S. service recipients with IDD from the FY 2016 RISP report (see citation below).
